

Why study languages?

Languages can assist you in numerous careers including:

Advertising	Politics	Travel & Tourism
Insurance	Broadcasting	Law
Journalism	Film & TV	Business & Finance
Publishing	Secretarial services	
International Relations		
Graphic Arts & Illustration		

Learning languages has so many additional benefits!

- Research has shown that study of a second language improves ability in the first language.
- People who have studied a second/third language tend to score higher on aptitude tests than those who have not.
- Language study opens up possibilities for travel and new experiences all over the world.
- Language study helps us to understand and appreciate differences between cultures.

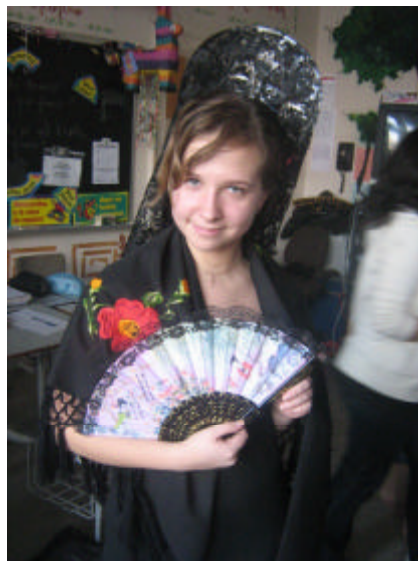

Languages are treasures to be discovered!

Why languages at North Toronto?

NTCI offers one of the largest selections of languages in the GTA! We offer French (core and enriched), German, Latin, Spanish and Ancient Greek! Enriched French allows students from Immersion and Extended programs to continue French at an accelerated pace by starting with the grade 10 course. At NT, students have the option of beginning a third or fourth language in their first year of high school and can complete a whole program (or two!!) by grade 11.
